Length	Width	Hole Diameter	Nett Weight Black	Nett Weight Galvanised
mm	mm	mm	kg	kg
300	278	50	1.30	1.34
400	278	50	1.69	1.74

Key Features

- DSI Underground Butterfly Plates feature both longitudinal and transverse vees for added strength and greater ability to conform to irregularities in rock surfaces.
- Designed with a profile that gives greater strength by strategically pressing the vees, placing the perimeter of the Butterfly Plate in tension.
- User friendly' rounded corners.
- Can be used with both Flat and Domed plates (up to 150mm square) to form Dragonfly's (DF).
- Are suitable for use direct to the rock surface or with Welded Mesh.
- Are supplied with a slot for suspension of light services.
- Corrosion protection may be provided by hot dip galvanizing or supplied from pre-galvanized material.
- There are 3 types of finish, standard, modified edge and sand blasted.
- Australian Patent Number 529082 is applicable to DSI Underground Butterflies.

Notes

- Butterfly Plates are tied with wire clips and then palletised.
- DSI Underground is Quality Assured to ISO 9001:2015

Product Accessories Examples

- DSI Underground manufactures a comprehensive range of products specifically designed for this range of Plates.

Typically, Products used are:

	Products		
Product Group	Plates	Plates	Bolts
Product Imagery			
Product Code Prefix	OCP	STP	AKH
