

| Product Code Guide | Plate Type | Size | Style | Nut Type | Coating | Packaging |
|--------------------|------------|------|-------|----------|---------|-----------|
| | D | 170 | MESH | N24 | TD | E |

Physical Properties

| Plate Thickness | Diameter | Weight |
|-----------------|----------|--------|
| mm | mm | g |
| 2.5 | 150 | 610 |

Key Features

- The MESHXpress plate is designed to secure steel mesh to preinstalled bolts.
- The plate can be installed with jumbo rigs due to its self-centring feature, reducing the need for a perfect alignment of the bolt.
- Compatible bolts include the M24 Posimix Bolts and Thread Bar Posimix Bolts.
- Its soft edges prevent breaking mesh.
- Eliminates the need to use extra bolts to pin mesh.
- Installs mesh hard against the rock face.
- Corrosion protection may be provided by hot dip galvanising or zinc coating.

Notes

- DSI Underground is Quality Assured to ISO 9001:2015

Product Accessories Examples

- DSI Underground manufactures a comprehensive range of products specifically designed for this range of plates.

Typically, Products used are:

| | Products | | |
|---------------------|---|--|---|
| Product Group | Bolts | Resin | Bolts |
| Product Imagery |  |  |  |
