

Product Code Guide	Plate Type	Size	Style	Nut Type	Coating	Packaging
	D	200	MESH	N24	TD	E

Physical Properties

Plate Thickness	Diameter	Weight
mm	mm	g
2.5	170	1,300

Key Features

- The MESHXpress plate is designed to secure steel mesh to preinstalled bolts.
- The plate can be installed with jumbo rigs due to its self-centering feature, reducing the need for a perfect alignment of the bolt.
- Compatible bolt thread types include T20, T24, M24 and 1"UNC.
- Its soft edges prevents breaking mesh.
- Eliminates the need to use extra bolts to pin mesh.
- Installs mesh hard against the rock face.
- Corrosion protection may be provided by hot dip galvanising or zinc coating.

Notes

- DSI Underground is Quality Assured to ISO 9001:2015

Product Accessories Examples

- DSI Underground manufactures a comprehensive range of products specifically designed for this range of plates.

Typically, Products used are:

	Products		
Product Group	Bolts	Resin	Bolts
Product Imagery			
Product Code Prefix	AT	RL	TB
