

OZ COMBINATION SPANNER

Self-Drilling Rock Anchor System

Product Code

OZSTCUSP

Key Features

- The OZ Combination Spanner is a general purpose tool primarily used for cutting steel, and plastic, strapping on roof and rock bolt bundles.
- Other uses are to assist the removal of rotary drill bits, via the figure 8 slot in the main body from hexagonal drill rods. The end slots fit both 19 and 22mm hexagonal drill rods.
- The OZ Combination Spanner is manufactured from high quality spring steel to provide robustness in service.

Packaging

- Supplied as required.

Notes

- Only DSI Underground rock bolt components should be used to enable the optimum performance of the bolt system to be obtained.
- DSI Underground Mining Products Division is Quality Assured to ISO 9001:2015.
