

TOOLS – DOLLIES & SPANNERS

Product Code Prefix

FRICITION BOLT DOLLIES

SFB

For Hydraulic Machines

| Product Code Guide | Spanner | Primary End | Secondary End | Length |
|--------------------|---------|-------------|---------------|--------|
| | S | FB47 | T38F | |

Key Features

- These Friction Bolt installation “Dollies” were designed to suit most hydraulic rotary impact rock drills (drifters).
- DSI Underground Friction Bolt Dollies are manufactured from high tensile material which are then hardened & tempered to minimise breakages from impact and provide resistance to wear.
- The primary end code designates the diameter of the friction bolt to be installed.
- The secondary end code designates the thread size and type coupling to the machine.
- The nominal overall length of the dolly is length is 174mm as standard. Other lengths and configurations are available by negotiation.

Packaging

- Supplied as required.

Notes

- Only DSI Underground rock bolt components should be used to enable the optimum performance of the bolt system to be obtained.
- DSI Underground Mining Products Division is Quality Assured to ISO 9001:2015.

Product Accessories Examples

- DSI Underground manufactures a comprehensive range of products specifically designed for this range of Dollies.

Typically, Products used are:

| | Products | | |
|---------------------|---|--|---|
| Product Group | Butterfly Plate | Dome Plate | Bolts |
